### PROFILE

I'm a Enthusiastic and detail-oriented web developer with a solid foundation in HTML, CSS, JavaScript, and modern frameworks. Passionate about building responsive, user-friendly websites. Brings fresh ideas, strong problem-solving skills, and clear communication. Eager to contribute and grow in a collaborative team environment

### PROJECTS

#### Buytime, Course Project

2025

- Designed and developed a responsive e-commerce website frontend using React and Bootstrap.
- Implemented dynamic product listings with reusable components and responsive layouts.
- Integrated cart functionality with real-time updates using React state management.
- Used Bootstrap for consistent UI design and mobile responsiveness.
- Created a clean, modern interface for product browsing and user interaction.
- Applied best practices in component-based architecture and user experience design.

#### Job Portal, Final Year Project

2024

- Developed a Job Portal System using HTML, CSS, JavaScript, PHP, and MySQL.
- Implemented user registration/login for job seekers and employers.
- Enabled job posting, application, and resume upload features.
- Created a responsive and user-friendly front-end interface.
- Designed a backend system to manage jobs, users, and applications.
- Built an admin panel for monitoring and system control.

### CERTIFICATES

#### Python Full Stack

Training has been certified in Besant Technologies, Kalyan Nagar, Bangalore
